Suggestions/Areas Needing Improvement:

- Slow down on presentations - Directions tend to run together.
- Try not to end every direction, statement, comment with the term "ok".
- Needs to project voice a little better.
- When introducing a new tech vid use it is better to provide written instructions along w/ ORAL to maximize student understanding.
- Be more specific w/ questions - ex... Summer was made up of what? extremely vague - looking for geography, physical, political, all?
- make sure you always conclude with a conclusion.

Goals for Next Week/Future:

Slow Down & project more.
